Our Mission

To provide the highest quality of childcare in an environment that has been designed to promote curiosity, nurture imagination, and encourage children to be accepting, empathetic, and confident through the formation of strong relationships with people of all ages and from all walks of life.

Our Vision

By using a child and adult led approach, we allow children to develop and create their own learning and independence to reach their full potential and become confident individuals for their future.

Our Values

Our children are our main focus, our number one priority and are at the centre of everything we do. We recognise that that every child is unique when they come to us and our values have been designed to embrace and celebrate each child's differences.

We believe that understanding our children enables us to design an environment which responds to individual interests and is best suited to individual personalities giving our children the most effective opportunities to develop their imagination, take risks and accept challenges, and develop confidence in themselves and others.

We are committed to providing a unique, exciting, and warm environment where children have the confidence to be happy, curious, and imaginative.

Empowerment

We will place our children the centre of their learning and development, designing their time with us around their needs and interests inside a warm, safe and secure environment where they feel at home

Individuality

We will treat our children with the respect they are due, remembering at all times their uniqueness and encouraging them to embrace their individuality

Imagination

We will inspire our children to ignite their curiosity and lose themselves in their imagination by engaging in creativity, exploration, and adventure

Challenge

We will engage our children in exciting and challenging learning experiences to spark motivation for future learning and develop confidence to approach new challenges

Kindness

We will promote a culture of kindness, integrity, and empathy. We will ensure our children understand the importance of respecting others and accepting difference
